

RICK VASQUEZ FIREARMS, LLC

CONSULTING SERVICES

Firearms and Ammunition Classification Expert to Governments and Private Industry

Rick Vasquez is a United States Government certified firearms classification expert who has represented the U.S. Government as a firearms technical representative to aid other nations. Rick has also worked within the U.S. federal government assisting various departments and agencies with firearms policies and questions. Rick not only provides firearms classification expertise but also assists both foreign and domestic governments in firearms origin, functionality, and importability. Rick is widely recognized in both the state and federal courts as a subject matter expert in firearms and ammunition classification. His training, experience, and background make him a continued valuable resource to both governments and private companies as a technical advisor on National Firearms Act (NFA), Gun Control Act (GCA), International Traffic in Arms (ITAR), Arms Export Control Act (AECA), manufacturing, and import related concerns. Rick is a certified law enforcement and USMC firearms shooting instructor, with an emphasis on offensive use of firearms. During employment with ATF, Rick provided foreign and domestic firearms training, as well as technical assistance to the Border Patrol, Customs and Border Protection, Secret Service, and many other federal and state law enforcement agencies.
