**FIELD & BRUSH MOWERS**

**SHOCK-ABSORBING  
 "SWINGING" BLADES—**

If you hit an obstacle, blades PIVOT, protecting engine and spindle.

**BLADES EXTEND BEYOND THE WHEEL PATH**

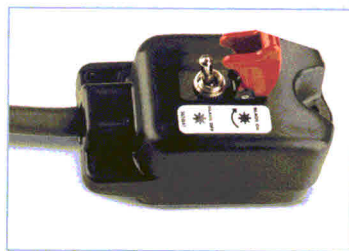

The mowing blades extend outside of the wheels—so you can mow right up next to fences, walls, hedgerows, and other obstacles without interference.

**POWERED BY**

**ADJUSTABLE HITCH**

Our unique Adjustable Hitch makes it easy to hook up to ATVs, UTVs, and lawn and garden tractors (minimum 14 HP and/or 400 lbs.) with a pin hitch, regardless of the height of the vehicle's hitch. If you're not offsetting the mower, you can just use the shorter towbar.

**STAY SEATED, CONTROL IS AT  
 YOUR FINGERTIPS!**

A remote control allows you to engage and disengage the mower blade—right from the driver's seat of your towing vehicle. Not for PREMIER Model.

*\* Assembled in the USA using domestic and foreign parts.*

*Offset to the right or left  
 while your tow vehicle  
 rides in the clear.*
